Each child	\$144	\$198	\$338,000	\$448,000

* The Roth IRA wealth creation is based on your account earning the 50-year average S&P500 index 11.5% annual rate of return. Historical rates of return are not a predictor of future rates of return. This is a mathematical calculation; it is not a prediction or forecast.

** 1417Power offers referral credits and market survey sales revenue sharing credits which increase work hours by up to 30%. The increased work hours result in more take home pay and a larger Roth IRA savings contribution amount.
